The organization specializes in legal and human rights monitoring, legal aid, civic awareness, research, and advocacy for policy and legal reforms. The organization has a mission of empowering the people of Tanzania, to promote, reinforce and safeguard human rights and good governance in the country. The broad objective is to create legal and human rights awareness among the public and the underprivileged section of society through legal and civic education, advocacy linked with legal aid provision, research, and human rights monitoring.

This is the same as providing education to the public to defend and protect human rights in the country.

LHRC has the plan to digitize its library by installing an Online Public Access Catalogue (OPAC) system, so that different publications, books, and reports can be easily accessed by all users around the world.
